WAA-VIMA

's Software of WAA
Application

This application processes DMV Title Section forms and documents. It is approved by the United States Postal Service, PS 3811 Certified Mailers. The application for the Management of Vehicle's Title Forms and Documents has 16 information tables. These tables management Vehicle's Make, Model, Year, Colorado Counties and Law Enforcement Agencies. The database can manage as many as 1 billion records. This is a big advantage for our customers to maintain a Huge library of archives of DR forms including historical retrieval and printing. Internet this application uses different links important data this information help keep you Information Updated and fresh. The Internet also is used to process the 3811 certified mailer, we call the LCD 811 form. WAA has approval with the Colorado Department of Revenue for Title Section for Towing Companies and Repair Shops. If required, phone numbers and contacts names are available for both the State of Colorado and Current Users of our product. This application called WAA-VIMA and IBM Lotus SmartSuite are licensed products and can not be copied and used for resale purposes. WAA sales all software as it is when purchased. We do provides free updates for the first year of purchased. These updates can be downloaded for our web site gilwall.com. After your 1st year we continue to provide updates to the DR forms and application as well for a fee of \$120.00 a year or \$25.00 for a one time update.
